Ingredient sourcing – we aim to make a positive impact with our responsible product sourcing. These are the key areas that we focus on:

Organic – we look to source products and ingredients from organic sources whenever practical.

Fair-trade – we source a number of products that are either entirely Fair-trade or made from some Fair-trade products

Local sourcing – where practical, we aim to source local produce in a bid to reduce the environmental impact of excessive 'food miles'. We work hard with our suppliers to keep things local and deliver good value. We can trace all our products back to source and this is something that we are truly proud of.

Healthy eating – we have refined our cooking methods and recipes to incorporate healthier ingredients where possible. For example, we use minimal salt in our cooking processes, preferring customers to add more if they wish, and we use olive oil and semi-skimmed or skimmed milk as standard. We also offer plant milk alternatives if requested.

Minimum Orders

There is a minimum number for Buffet Food orders of six guests and all orders must be made 3 working days in advance (4 working days if requested after midday). However, if you would like to give us a call, we will do our best to accommodate your needs.

Coffee Breaks and Tea Times

Whether it's great freshly made 'bean to cup' coffee or a selection of our speciality teas we pride ourselves on the quality of our beverages. Our Mozzo coffee blend is 100% Fair-trade, 100% Arabica and 100% organic. We think our coffee is the best on the market and we feel comfortable that it is ethical and fair.
